Natural Beauty from the inside out

Have you ever wondered why, that year after year when sweet river streams mix with sea water, it never makes it less salty? Fish use this phenomena of sweet/salt water coalescing to navigate through the ocean's. If you even go deeper you'll find medicinal plants that grow at the bottom of the seas. There is great mystery, but also great strength, healing and cleansing power in nature. Especially in water.

Storm clouds ionised by lightning have cleansing abilities and heal nature. The Ionised raindrops have a neutral ph level and are high in redox. These characteristics can eliminate bad viruses, fungi and bacteria which are the cause of all sorts of skin and health diseases. But as storms pass, unfortunately so do these anti-bacterial features.

Through technology this proces is recreated what made it possible to stabilise these anti-bacterial characteristics making stable ionised water. This is water at its finest. Using Aqualyte in our Beauty Products, we have created amazing cosmetics for health and beauty care that beautifies you from the inside and out. Aqualyte Human harnesses the power of nature to restore health and make you look beautiful. Aqualyte stimulates active ingredients, increases oxygen absorption, is anti-bacterial and has no need for nor uses preservatives like parabens.

Beauty

Beauty is something magnificent. It shows itself in people, in nature around us, in designs and products. It is timeless and intangible, and at the same time very powerful. Beauty has many nuances, but ONE at the core: purity with a unique identity. This is the inspiration to design the products of Aqualyte Beauty.

The basis of our collections can be found in nature. We combine innovative technologies with the healing power of carefully selected raw materials. The secret of our success lies in the power of positively ionized water, or active water whereby the healing power of the raw materials is activated and can achieve even better. Nature raw materials and original receipts with ONE specific goal: pure beauty becoming so natural !

Beauty
Starts with
healthy
water

Water is a matter of life and death. Water purifies, cleanses and keeps us alive. There are a few things that are important and for which each and every one of us can take responsibility : to be healthy and remain healthy! Drink enough, get our "sour – base" system back in order, purify our body of poison and obstructions. Health comes from the inside. Therefore it is important to get the body back in balance. We do that by replenishing shortages and by building up a reserve, so we can build a natural resistance. Important is that we choose for absolute quality: natural

food supplements in vegetable capsules. Food supplements of Aqualyte pH in combination with Aqualyte pH Human give an optimal effect. With Aqualyte pH Human we purify our body and stimulate the effective material of the food supplements. Aqualyte pH Human is active water with an enhance Redox value. As such the metabolism and the other functions of the body run smoothly: as well to feed the cell, as to detoxify and to optimise inter and intra cellular communication. It brings the "sour-base" relation in the body in balance.
